# Memories

*"Memories, memories,  
Dreams I love so true,  
O'er the sea of memories  
I'm drifting back to you."*

Montgomery County High School was established and located at Independence, Kansas, by a special act of the legislature March 5, 1897, on a site donated by the city of Independence. The building was formally accepted by the Board of Education on June 6, 1899, Mr. Samuel M. Nees becoming the first principal.

The building, one hundred and fifteen by eighty-five feet and three stories high, was made of pressed brick and native sandstone. School in the new building opened on September 4, 1899.

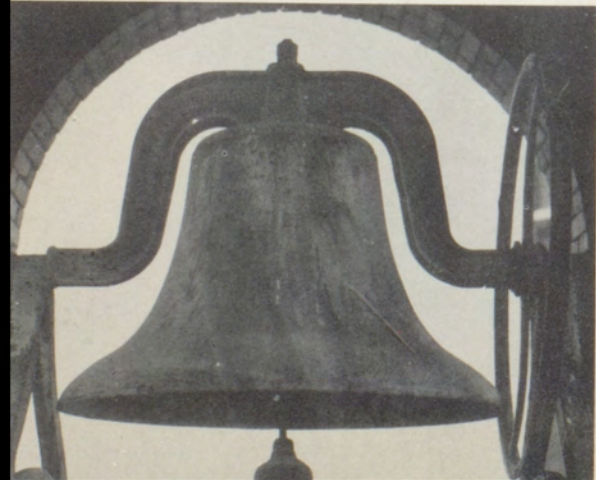

Twenty-two students were graduated in 1900 in the first class.

An addition to the original building was built in 1912.

In 1922 Montgomery County High School became Independence High School, with Mr. Nees being named principal, which position he held until his death in 1922.

Since that first graduating class in 1900, thousands have attended class in the building which was named Nees Hall in honor of its first principal.

Nees Hall sees this year the last graduating class that will ever pass through its halls and classrooms. In 1954 the eleventh and twelfth grades join the thirteenth and fourteenth grades in the new Independence Community College.

# Dedication

We, the students of Independence High School, wish to dedicate the 1953-54 Orange and Black to the memory of Nees Hall. This building, 56 years old, has served the community of Independence faithfully all this time; but as all things must end, this building has served its last year, giving way to the Independence Community College.

The bell tower, the doorways, and even some of our old rooms will linger in our hearts forever. We will keep these as our fond memories of old Nees Hall.
