

CHIEF

The first part of the document discusses the importance of maintaining accurate records in a laboratory setting. It emphasizes the need for clear labeling and organization of samples and equipment. The second part details the procedures for handling hazardous materials, including the use of personal protective equipment (PPE) and the proper disposal of waste. The third part covers the calibration and maintenance of laboratory instruments, ensuring that they are used within their specified ranges and that any necessary repairs are documented. The final part of the document provides a checklist for daily laboratory safety checks, including the inspection of fire extinguishers, first aid kits, and emergency exits.

Dedication

Miss Alice E. Aubry

Rich is the harvest from the fields
That bounteous Nature kindly yields,
But fairer growths enrich the soil
Ploughed deep by thought's unwearied toil
In Learning's broad domain.
And where the leaves, the flowers, the fruits,
Without your watering at the roots,
To fill each branching vein?

"To the Teachers of America"

--Oliver W. Holmes

Our New Chief

Richard A. Chase—Principal

It is on the sound education of
the people that the security and
destiny of every nation chiefly rests.

--Kossuth.

I. J. H. S. CREED

I am aware of the many opportunities existing for me in the Independence Junior High School. As a student, I desire to avail myself of these opportunities and at the same time help perpetuate and add to the splendid traditions and ideals which the school now enjoys.

As a lamp to guide my course, I will keep uppermost in my mind this thought: "Is what I am about to do or say something that every student could do or say without injury to my school?"

OUR SCHOOL SONG

(Anchors Aweigh)

We are the Junior High, so proud are we.
 We are the best there is; to that you will agree-e-e-e
 Our goal is to the top, we'll do or die
 And we will reach that goal so cheer for Junior,
 Cheer for Junior High

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and transfers between accounts.

The second part of the document provides a detailed breakdown of the accounting cycle. It outlines the ten steps involved in the process, from identifying the accounting entity to preparing financial statements. Each step is explained in detail, with examples provided to illustrate the concepts.

The third part of the document discusses the various types of accounts used in accounting. It distinguishes between assets, liabilities, equity, revenue, and expense accounts, and explains how they are classified and balanced. It also covers the concept of debits and credits, and how they are used to record transactions.

The fourth part of the document discusses the importance of internal controls in accounting. It explains how internal controls help to prevent errors and fraud, and how they can be designed to ensure the accuracy and reliability of financial information.

The fifth part of the document discusses the role of accounting in business decision-making. It explains how financial statements provide valuable information to management and other stakeholders, and how this information is used to make informed decisions about the future of the business.

The sixth part of the document discusses the ethical responsibilities of accountants. It emphasizes the importance of honesty, integrity, and objectivity in the accounting profession, and how these principles should guide the behavior of accountants in all circumstances.

The seventh part of the document discusses the role of accounting in the economy. It explains how accounting provides a common language for business transactions, and how this helps to facilitate trade and investment.

The eighth part of the document discusses the role of accounting in the legal system. It explains how accounting records are used as evidence in court cases, and how accountants are often called upon to provide expert testimony.

The ninth part of the document discusses the role of accounting in the public sector. It explains how accounting is used to track government spending and revenue, and how this information is used to ensure the efficient and effective use of public resources.

The tenth part of the document discusses the role of accounting in the global economy. It explains how accounting standards are developed and used internationally, and how this helps to ensure the comparability and reliability of financial information across different countries.
